**Subject:** RE: [REDACTED] Your Important Decisions That Will Affect Many South Carolinians including me

Dear Mr. Mixon,

This is to acknowledge receipt of your additional Letter of Protest/Comments to the Public Service Commission of South Carolina. Your additional Letter of Protest/Comments will be placed in the Protest File of the Docket listed below and on the Commission's Website at [www.psc.sc.gov](http://www.psc.sc.gov).

- Docket No. 2017-370-E - Joint Application and Petition of South Carolina Electric & Gas Company and Dominion Energy, Incorporated for Review and Approval of a Proposed Business Combination between SCANA Corporation and Dominion Energy, Incorporated, as May Be Required, and for a Prudency Determination Regarding the Abandonment of the V.C. Summer Units 2 & 3 Project and Associated Customer Benefits and Cost Recovery Plans

A Protest is an individual objecting on the ground of private or public interest to the approval of an Application, Petition, Motion or other matters which the Commission may have under consideration. A Protest may offer sworn testimony but cannot cross-examine witnesses offered by other parties.

According to the Commission's Rules of Practice and Procedure, filing a Protest does not make you a Party of Record. A Protestant desiring to become an Intervenor (i.e., a Party of Record) in a proceeding before the Commission may file a Petition for Intervention within the time prescribed by the Commission.

You can follow this Docket and other daily filings made at the Commission by subscribing to the Commission's Email Subscriptions at this link: <https://dms.psc.sc.gov/Web/Email>; or you can follow the individual Docket at the link listed below:

Docket No. 2017-370-E - Joint Application and Petition of South Carolina Electric & Gas Company and Dominion Energy, Incorporated for Review and Approval of a Proposed Business Combination between SCANA Corporation and Dominion Energy, Incorporated, as May Be Required, and for a Prudency Determination Regarding the Abandonment of the V.C. Summer Units 2 & 3 Project and Associated Customer Benefits and Cost Recovery Plans - <https://dms.psc.sc.gov/Web/Dockets/Detail/116542>

If we may be of further assistance to you, please do not hesitate to contact us.

Sincerely,

Deborah Easterling

Subject: Mr. Elam --Your Important Decisions That Will Affect Many South Carolinians including me

Mr. Elam:

I am writing to ask you to search your heart and mind in your deliberations about two important issues. These issues are coming up very soon. My wife and I have lived in Cayce for over 40 years and I am from Barnwell having attended Barnwell High School and The Citadel.

My wife and I are retired and I used to work for Western Electric-Nassau Recycle/ AT&T/Alcatel-Lucent. I know what is like to work for a utility that has gone through turmoil. Even then the mgt. of the company was held responsible for their bad decisions for example purchasing NCR which meant layoffs for NCR folks in West Columbia and Liberty.

We have paid and paid and paid SCE&G for these Nuclear Plants while the executives received bonuses even when they knew these plants could never be built. They would not face the facts because their pockets were being lined with bonuses off our backs. This action was wrong then and is wrong now. Greed and Irresponsibility go along with each other. No Transparency is also Wrong.

Now- Dominion claims to have come to the rescue. NO NO NO. These folks are the buzzards coming to clean up what is left and claim the spoils for them. This company wants to buy SCANA on the cheap. We the rate payers will Lose Lose and Lose and no one will be held accountable for the future costs of these two Plants. Especially, not the executives at SCANA.

I recommend and ask you to consider to let at least 2 other Companies Bid for SCANA including their debt and see that what each BID entails.

I am sure other Companies will treat all parties concerned better than Dominion. Who knows they Dominion may back out in the end.

My next question to you is who will pay for the billions left on the table by SCANA Mgt. decisions regarding the Debt Load left from the Abandonment by both Santee Cooper Mgt. and SCANA Mgt.

We all now know these plants should have been financed with Utility BONDS. Then, the BOND Holder would be holding the debt. As well as the mgt and shareholders of SCANA would be on the hook.

I ask you to Hold HARMLESS the Rate Payers of SCANA for any Future Debt for these two Nuclear Plants. The lies and deceit of the Executive Managers of SCANA is the worst behavior many of our citizens have ever seen. I am 71 and I have seen the Savings And Loan Crisis, Mr. Madoff stealing from his clients, and more malicious behavior by men that were entrusted with great responsibility.

You have a heavy burden in these two decisions. I ask you to weigh all the facts and put yourself in the positions of the ratepayers, these executives and the people of our state. Your decisions will have long lasting impact on many people in our great state.

Please read my words with insight and detail. I promise to pray for wisdom in your decisions in the next two months. Thank you for listening to my words.

Sincerely yours,
